

New Teachers Have Replaced Twomey, Ross

Two new teachers joined the faculty of Teaneck Senior High last week. They are Miss Winona King and Mr. Millard Smith.

Miss Claire Twomey who formerly taught in the Senior Home Economics department. She is a graduate of West Virginia University, Morgantown, West Virginia. She earned her bachelor and master degrees at Columbia University.

Before coming to Teaneck, Miss King taught in Chester, Pennsylvania, and in the Trenton Area of New Jersey.

Collecting pressed glass is Miss King's favorite hobby. She is also interested in antique furniture.

When asked what she thought of Teaneck, Miss King stated that it is rather soon for her to form an opinion but she went on to say that she would not have come here if she didn't like what she knew about it.

Mr. Smith from Hanover, Pennsylvania, has replaced Mr. Ross in the Senior High history department. Mr. Smith attended Susquehanna University. He also attended Penn State University where he earned his A. B. and M. E. D. degrees.

Before coming to Teaneck, he taught in English Town High School and Roxbury High School, New Jersey.

Student Court Tries Two Cases

The Student Court is operating well since the rest of the student government has begun to cooperate. A trial basis was begun a month ago, because the members of the Student Service didn't give summonses to violators of regulations. Although the court had been organized all year, they didn't have an opportunity to operate.

There were two cases on February 10th. Arthur Smith had been given a summons for resisting correction by a member of the Student Service. A suspended sentence and an eight period were given. Carl Winder, who was summoned, was given a suspended sentence.

A temporary justice, Evelyn Savidge, was elected to replace Donald Dinnison who has been absent because of basketball. Plans are being made to contact Student Courts of other schools in this and to obtain ideas for the reorganization of methods, procedures, and penalties.

150 Attend Reception

Defying the weather man, 100 People, topping last year's attendance record, turned out the night of February 11 for the Mother and Daughter Reception, the annual affair sponsored by the Girls' League.

The first part of the program included a reminiscing of the old vaudeville days marked by a waiters' quartet and a Chaplin movie. A selection of modern songs and a skit comprised the latter part of the program. Five members of the H-Y (they only broke 3 cups) served the refreshments. The centerpieces was presented to Mrs. Bolinder, the mother of the League's president, Phyllis Bolinder.

Girls Collect Cotton Squares for Robes

"We have decided to collect squares of cotton to make lap robes to help the Red Cross," said Jacide Colgan, secretary of the Girls' League. Anyone who has some squares is urged to bring them to Miss Ruehe in 211. At the next meeting, the members will decide what days they will spend in sewing lap robes.

It was decided at the last meeting, February 14, that the 10th grade members would have the opportunity to offer and take charge of a program for the league in March.

No definite plans have been made thus far, however.

Helen Jepson Takes Delight In Domestic Life, Young Son

"My biggest thrill was having my young son, who is now four and a half months old," said Helen Jepson, star of the Metropolitan Opera Company, "and my ambition is to keep a happy family life."

Miss Jepson, who is now in her tenth season at the Metropolitan, began to sing when she was very young. She started to study music seriously when she was nineteen at the Curtis Institute, where she was awarded scholarships for five years. The role of Mollie in "La Traviata" by Verdi is the operatic part which Miss Jepson enjoys singing most.

In addition to her musical career, the famous star is very much interested in domestic life, in the Metropolitan Opera Guild, and in community affairs.

On Friday morning, February 18, Miss Jepson offered two selections to the 7th and 8th grade assembly and to those students who plan to attend a matinee presentation of the opera "Mignon" by Thomas at the Metropolitan on March 31. Accompanying the singer on the piano was her aunt, Mrs. Reggie Burke, popularly known to Teaneck residents as Sonia, famed piano-accompanist. Mrs. John DeWitt Peltz, editor of "Opera News," weekly publication of the Metropolitan Opera Guild, told the story of "Mignon" to the students.

Miss Jepson, who is Mrs. Walter Dellera in private life, resides in Teaneck and is interested in developing music among the young people of the community.

Pep Tags Produce Service Club Profits

"We have made a profit of \$21.70 by the recent sale of Pep Tags," stated Mrs. Kathryn P. Lischer, Service Club advisor. The club has also received \$43.00 from the Girls' League and \$25.00 from the Junior Red Cross.

The club has sent out some birthday cards this month but there are boys in the service whose addresses have not been received. The following boys celebrate their birthdays this month: Peter J. Clifton, Henry Fredericks, Jr., Richard T. Hahn, George Johnston, Wilbur Mondigo, Adelbert McKelvey, Frank H. Morgan, Jr., Leonard F. Morgan, William E. Nielsen, Charles J. Shy, William H. Walker, Edwin L. Wilbur.

There are also many boys who celebrate their birthdays next month whose addresses are unknown. The first list follows: John G. Amelander, James F. Best, Robert J. Davis, Douglas Delock, George C. Drake, Richard Eiting, Claude A. Flagg, Jr., Edward R. Gogolin, Harry G. Knight, Patrick E. O'Neil, Thomas Rivers, William H. Schwartz, Russell A. Stohn, Joseph Wagner, Leo Wyler.

Anyone who knows the addresses of any of the boys should see Mrs. Lischer in 301 as soon as possible.

The Club Board

French Club

A trip to New York, for luncheon and a French motion picture, is being planned by the French Club, according to Miss Dorothy Devany, club sponsor. In May, the club will sponsor an affair to raise money, but plans for this have not yet been completed.

Active Atoms

Because of the interest in cosmetics, foods, preservatives, and straight qualitative analysis the Active Atoms are conducting experiments on these things. By springtime the group hopes to become interested in soil analysis. The Group in Photography have not met in two weeks.

Physics Club

The members of the Physics Club are looking forward to having a meeting with the Astronomical Society as soon as the weather is warmer. At this time the Physics Club is having experiments on heat as well as how a refrigerator works, some are giving reports on astronomy.

Apparatus Club

Because the junior gym is unavailable during the basketball season, the Apparatus Club is devoting its time to tumbling in the corrective gym.

German Club

Many interesting plans, including a trip to New York to see Tomorrow The World, have been made by the German Club, under the direction of Mr. Max Vorwerk. In March, reports will be given by members on German composers, and a German motion picture will be shown if one can be obtained. Because of the war, these are very difficult to secure.

In the spring, Mr. Vorwerk hopes to entertain members of the club at his home in Montclair, where Mrs. Vorwerk will recount to the students some of her experiences in Nazi Germany.

A. S. F.

A points system by which members of the International Relations Forum, under the direction of Mrs. Eleanor Lyon, can earn awards, was accepted by the Executive Committee.

Because of the holiday yesterday, a special discussion meeting will be held February 29. The topic discussed will be "What concession are we willing to make for lasting peace?"

Riding Club

Boots and Saddles will be the theme of the Riding Club dance to be given March 17. In the Senior Gym.

Sponsored annually by the Riding Club, the affair has always been the highlight of novelty dances, and a favorite among the students. The sponsors expect a large turnout, so—Don't forget—Dance, March 17.

New Student Teacher On Girls' Gym Staff

Miss Marie Farrell is the very competent young lady soon practicing teaching in the Senior Girls' Gym these days. With Miss Claire Guerber's help she is learning the fundamentals of teaching. Miss Farrell is studying at the New Jersey College for Women at New Brunswick. Her course includes four weeks of practice teaching which will keep her here until February 23.

Miss Farrell is very fond of teaching and finds our physical education classes have a very agreeable arrangement of student jobs. However, it took her some time to get on to our time system in the gym classes.

The variety assembly for the eleventh and twelfth grades on February 10 was something new and different for Miss Farrell, never having seen one before. She comes from a high school of about 400 students and is quite amazed at our some 2,000 pupils.

Her greatest interest is, of course, athletics of any kind, but she finds time to work at her second love, handcraft, working with leather especially.

FLOWERS THAT GLOW IN THE DARK!

LOVELY GARDENS
NIAS or ORCHIDS that glow in the dark like a jewel.
ONLY \$1 EACH!
