## Slavery Days To Be Portrayed In Revival Of 'Uncle Tom's Cabin'

Vivid pictures of conditions as they existed in slavery days will be enacted before an audience of Teaneck people in the High School Auditorium the evening of Wednesday, Sept. 14, when "Uncle Tom's Cabin", one of the oldest and most famous of all American dramas, will be presented under the auspices of the Teaneck-Bogota Real Estate Board. Ten percent of the gross receipts will be donated by the board to the Mayor's Emergency Relief Committee.

This will be no amateur production by local talent, but an artistic presentation by skilled actors, with utmost attention to historically correct detail in stage settings, costumes and acting. This is assured by the fact that the production will be under direction of Frank Lea Short, who for years has held high reputation for the artistic merit of his productions. He is a graduate of the American Academy of Dramatic Arts, and for two years was a member of its faculty. Later, for twelve years, he directed the Yale University Dramatic Association. He holds letters of high commendation from Presidents and Professors of leading colleges and universities throughout the East, where plays

(Continued on Page 9)

## NEW RELIEF BOARD APPOINTED TO TAKE CARE OF EMERGENCY

By resolution of the Township Council a new committee of citizens has been created, entitled the Mayor's Emergency Relief Committee of Teaneck. In the resolution nineteen are named as the original members of the committee, to which additions will be made by action of the Council from time to time, until the committee includes ample representation from every section of the township.

It is known that raising funds for emergency relief will be one of the important matters to be undertaken for the coming winter, and until conditions of unemployment

(Continued on Page 15)

## Idle Relief Program Cost \$63,919; Township Share To August 1, \$42,105.69

Detailed figures on the unemployment situation in Teaneck, and on sums received by the state under unemployment and emergency relief laws, also on the expenditure of these funds, are all contained in a report presented to the Mayor and Township Council by Township Manager Paul A. Volcker under date August 12.

The figures, tabulated as they appear in the report, and presented in connection with this article, show what it cost to improve the high school athletic field, including the erection of the stadium, building six tennis courts, laying a five-lap cinder running track and grading and seeding the remainder of the field for soccer and baseball.

It was this improvement that won the praise of inspectors sent to Teaneck from the office of Mr. Barnard, head of the state's emergency relief organization, who said Teaneck had made better use of state funds than they had noted in any other municipality.

The figures show the total cost of the high school ground improvement

(Continued on Page 5)

## Enthusiasm High For Stadium Dedication Program Saturday

Teaneck Citizens Combine Formal Opening of New Stadium With Great A. A. U. Sports Program; Proceeds For Emergency Relief Work

"Get on your mark! Ready! Go!"

The new stadium and athletic field on the high school grounds

will be given its dedication of service on September 10, when the most important athletic contests ever staged in Teaneck will be held under the auspices of the new Advisory Board on Parks, Playgrounds, and Public Recreations, and under sanction of the New Jersey Association of the Amateur Athletic Union, familiarly known to all athletes as the A. A. U.

It is expected that this event will bring out a better showing of the real athletic talent in Teaneck than ever assembled before at any meet, and a large committee is working with enthusiasm to bring about a large attendance, hoping to raise a handsome sum for emergency relief in Teaneck, to which the entire net proceeds will be devoted.

The program announced by the athletic committee of the board offers opportunity for competition by young and old of both sexes. Some events will be for Teaneck residents only, and others open to all comers. It is anticipated that one of the results of the meet will be the permanent organization of a Teaneck Athletic Association, to be affiliated with the New Jersey Association, A. A. U.

## VISIT THE FIREHOUSE TO SEE DEMONSTRATED NEW SIGNAL DEVICES

Since the last week in August the new alarm system at Fire Headquarters has been in service and citizens are cordially invited by Chief Murray to stop in and have explained to them the operations thereof.

Briefly, the system consists of an electric air compressor, tanks for storage of the compressed air and an air whistle. This whistle is operated by means of standard fire department transmitting apparatus. The system is so built that in case the city current were shut off,

## 14 Police Pistol Teams Compete At New Range

The Teaneck Police Department christened its new pistol range on September 1 with a tournament in which pistol teams representing twenty-two police departments from all parts of New Jersey competed. Visitors experienced in competitions of this kind said the layout of the Teaneck range, built entirely by Teaneck policemen, was the best they had ever seen.

Both range and weather conditions

## Flower Lovers Eagerly Await Show, Sept. 17

It is with unusual pleasure that The Town Manager presents in this issue the program for the first flower show of the Garden Club of Teaneck, a flourishing organization that came into existence as the result of a suggestion published first in this newspaper only a few months ago. Final organization was effected little more than two months ago. The club now has an enrollment of more than 65 members, and the number is steadily growing.

The club has worked with such enthusiasm and fine spirit that arrangements for its Fall Flower Show are already complete, and it presents a program of competition in 98 classes, comparing most favorably with shows staged by many older and larger garden clubs throughout the county.

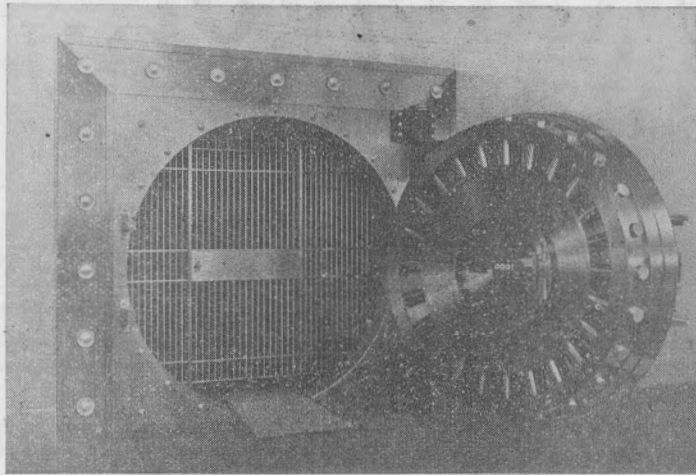

The Board of Education granted the club's request for use of one of the school buildings for the event, and the Fall Flower Show will be open to the public at School No. 2, Forest Avenue and Teaneck Road, from 5 to 10 p. m. Saturday, Sept. 17, and from 1 to 7 p. m. Sunday, September 18. No admission fee will be charged either Saturday or Sunday and the public is cordially invited by the officers of the club.

Some of the classes will be open for competition to club members only, but other sections have been provided in which all residents of Teaneck may compete. No entry

### HAVE YOU YOUR FIRE ALARM CARD?

Recently there were distributed to the houses throughout the township, cards explaining how to place an emergency fire call and showing the box number for each residence.

While these cards were distributed by firemen, both paid and volunteer, it is possible that here and there a house was missed. Since it is most important that each house has this card, it is urged that if you do not have your card, you please call the Teaneck Firehouse and one will be sent you. The phone number is Teaneck 7-2085.

If you have your card, please read it carefully, memorize your box number and then to make additionally sure, hang up the card near your telephone.

### RABIES SYMPTOMS ARE DESCRIBED BY HEALTH OFFICER W. REYNOLDS

W. F. Reynolds, Health Officer Rabies, or hydrophobia, is an infectious disease which is now rarely seen in human beings, although it frequently occurs in dogs and cats. It is caused by a filterable virus which is found in the central nervous system and in the saliva of affected dogs and cats, and is introduced into the human body by means of wounds made with the teeth of rabid animals. The incubation period of the disease is extremely variable, but in human beings it is from two weeks to six months.

The symptoms of the sickness in human beings are spasms and convulsions beginning in the muscles of swallowing. After the disease has developed, it always ends in the death of the patient.

Rabies is a common disease of dogs in some parts of the United States, and any health officer may suddenly be called to deal with an

## UNEMPLOYMENT PROGRAM COST \$63,919.63; TOWN BEARS ONLY \$42,105.69

(Continued)

ment was \$41,023.76, of which the state pays \$11,030.04, leaving the cost to the township \$29,993.72.

Unemployment work done in other departments brings the total spent in Teaneck's unemployment relief program from Dec. 31, 1931, to August 1, 1932, up to \$63,919.63 of which the state has paid or will pay \$21,495.13.

The statement in the report that in seven months the sum of \$8,500 has been expended in direct emergency relief, together with figures showing the number of men and women registered as unemployed, indicate that existing conditions present a serious problem for the officials and citizens of Teaneck for the coming winter and undoubtedly will serve to stimulate public support of all entertainments and activities devised with the object of raising funds for emergency relief.

Following is the full text of Mr. Volcker's report, to which he attached the tables of statistics and figures that appear herewith:

August 12th, 1932.  
Mayor and Township Council,  
Teaneck, N. J.  
Gentlemen:

I have pleasure in submitting herewith a statistical report on Teaneck's unemployment program which was concluded in its first phase on August 1st. You will note that a total of \$63,919.63 was spent on this work. The primary work was in connection with the Teaneck High School athletic field and tennis courts which cost a total of \$41,023.60. Reference to the table shows that of this total amount \$22,352.45 was for labor and the balance for trucks, material and tools. We have received or will receive a total reimbursement of \$11,030.04 so that the net cost to the Township of the stadium work is \$29,993.72. After the State reimbursement has been applied throughout, the total cost to the Township of work done up to August 1st is \$42,105.69. The accompanying sheets I think are sufficient in detail to give you the information which you need and desire. Any further costs or details can be readily obtained; since I am glad to say that our records are in such shape that we can trace the expenditure of every dollar.

This report does not cover the direct relief work which is still continued. It is my hope and my plan to submit to you a detailed report

on this in the near future. Meanwhile, I might say that up to date we spent approximately \$8,500 in direct relief. Since August 1st there have been food orders given at the rate of approximately 100 a week, for all of which a return has been made to the Township in labor.

The total spent in the administration of the work you will note is just about 5 percent and all of this went to persons who are on the unemployment list. It also includes payments made for clerical work done for the Welfare Committee and for the District Director's office. A number of Township officials naturally gave considerable time and energy toward the relief work without receiving extra compensation therefor. Of course such compensations was not expected or requested.

I take particular pleasure in the fact that so much of the work done was constructive in its nature, there being a minimum of the kind of work generally done under unemployment programs just to keep the men busy, the effects of which are soon dissipated.

The unemployed at present are finishing some grading around the High School and have begun clearing up around Township property, such as the highway yard, disposal plants, etc.

A great deal of credit in this unemployment work should be given to the West Englewood National Bank who, by taking the Township's notes therefore, made the work fundamentally possible.

Yours very truly,  
PAUL A. VOLCKER,  
Township Manager.

## TOWNSHIP MANAGER TO RENDER REPORT SOON

It seems certain that within the next month the Township Manager's report to the Council and Taxpayers will be issued. This report is overdue but several factors have conspired to delay its appearance. Among these were the fact that Township Manager Volcker has been kept exceedingly busy in the operation of the township and that his work was certainly by no means decreased by the additional load placed on his office by the requirements of unemployment relief.

Secondly, the Township Manager has rendered reports of his activity through the medium of the press and this publication.

Thirdly, and this perhaps is the most important reason, the manager has felt that an up-to-date and intelligent report could not be issued until such a time as the 1932 audit is completed.

After all, the finances are the heart of a municipality, and no report on the status of the health of any municipal body corporate would be complete without a report on its heart action.

## PAVING OF NEWBRIDGE ROAD BRINGS TEANECK FIRST STATE MONEY

For the first time in its history, at least as far as records can be found, Teaneck Township will receive money from the State in the form of State Aid for township roads.

While other municipalities in the county have from time to time received great sums of this money, one as much as \$83,000 within the last twelve years, for some reason Teaneck Township has never availed itself of this fund. While the present amount is not large, amounting in all to only \$4,500, yet it is hoped that this will be only the beginning, and that in the future the Township will receive a just and proportionate share of state money so available.

The section of Springfield Avenue and Newbridge Road which is to be improved extends from River Road easterly to the Bergenfield Borough Line, whence Bergenfield is carrying the improvement on through to Teaneck Road.

The original application called for improvement of the old alignment of Newbridge Road. However, the County Road Department preferred to approve the straight line made by Springfield Avenue, and during the winter put unemployed to work preparing the grade, so that all that remains to be done now is to place the hard surface.

A total of \$6,000.00 is available for this work and the actual cost, which will not exceed this amount, will be paid in proportion of three-fourths by the State and one-fourth by the County. Under the State Acts providing for township aid, the township must prepare the plans, have them approved by the State Highway Department and award the contract. This the Township of Teaneck recently did.

## 1932 AUDIT COMPLETED; SEE REDUCED COSTS

The audit of 1932 accounts by the Department of Municipal Accounts and Finances has been completed, and the data which the Auditors have compiled is now being written up in the Trenton Offices of the Commission.

While figures as to the cost thereof are at the present unavailable, it is confidently expected that statements made by the Council last year will be borne out. These statements were to the effect that over a period of three or four years the total cost of the thorough audits being made by the State Department would be less than the previous cost of the audits for a like number of years.

A great deal of the tabular, posting and transcribing work in connection with the 1932 audit was done by unemployed, so that the State Department found it necessary to have but one man here most of the time, except for several weeks at the end of the audit when three and four state auditors worked at it.

## TWP. TREASURER'S REPORT

# RABIES SYMPTOMS ARE DESCRIBED BY HEALTH OFFICER W. REYNOLDS

(Continued)

affected animal. The disease may be suspected when a dog or cat is sick and shows unusual irritability. A rabid dog or cat is likely to attack other animals that approach it. If a dog or cat shows suspicious symptoms, confine it in a quiet place where it cannot bite another animal or person. If it has rabies, it will die within a few days. If it recovers, it has not had rabies.

If an animal dies or is killed, cut off the head, preserve it on ice, and send it to a laboratory for an examination of the brain in order to make the diagnosis certain.

A diagnosis of rabies may be made by finding Negri bodies in the brain cells. A small piece of gray matter is crushed upon a microscopic slide and stained. The Negri bodies appear as spheres approximately the size of red blood cells located in the nerve cells. If suspicious bodies are seen, animal inoculation test with brain tissue will produce the disease when the animal has rabies.

The nature of the Negri bodies are in doubt. They may be the specific organisms of the disease, or bodies produced by a poisoning of the nerve cells. Preventative inoculations consist of the subcutaneous injection of the virus of rabies from a rabbit into a human being which produces an immunity which lasts for a few months.

The injections are used in order to prevent the development of rabies in a person who has been bitten by a rabid dog. They constitute what is known as the Pasteur preventive treatment.

## CHIEF F. A. MURRAY MOVES TO TOWN

Chief F. A. Murray has rented a house at the southeast corner of River Road and Maple Avenue. He is now engaging in moving his furniture and household effects from New Haven to Teaneck.

Mr. Murray's family consists of Mr. and Mrs. Murray and five children.

## FLOWER LOVERS AWAIT FIRST FALL SHOW AT SCHOOL 2, SEPTEMBER 17

(Continued)

fees are required, and awards will be in the form of ribbons as first, second and third prizes in each class.

Flower experts from out of town have been invited to act as judges and their names will be announced before the show. Ribbons awarded will be presented to winners by Mayor Van Wagner at a meeting of the club to be held in the council chamber at Town Hall the evening of Thursday, Sept. 22.

President C. J. Fleischman announces that the purpose of the Fall Flower Show is to demonstrate how well flowers in the various classes can be grown in Teaneck gardens, and that the club plans to make this event an annual feature in the regular club program of events.

The members of the Fall Flower Show Committee of 1932 are: William Flackman, 40 Church Street, Chairman; Mrs. C. J. Fleischman, 353 Johnson Avenue, Secretary and William Adams, Henry P. Bruns, J. H. Burber, Hugo Hagen, L. T. Hostetler, Mrs. L. T. Hostetler, Mrs. N. H. Jocelyn, Mrs. H. Langley, Mrs. A. Lorenzen, Mrs. C. L. Northrop and Victor H. Palmer.

Rules and conditions that apply to the show are announced by the committee as follows:

"Some classes are open to ama-

teur members of the Garden Club of Teaneck only, and others, as noted, are for non-members. In non-member and open-to-all classes exhibits will be restricted to amateur growers.

"An amateur member is one who does his own garden work except original soil preparation, and does not sell commercially.

"More than one entry permitted, unless otherwise specified.

"While not mandatory, it is desirable that the names of varieties be shown on small tags which may be obtained from the committee.

"All flowers and foliage used must be grown by the exhibitor, unless otherwise specified. Flowers must be arranged by exhibitors.

"The show committee will provide vases, but exhibitors may use their own receptacles. Except in artistic arrangement classes, receptacles will have no bearing in judging of exhibits. The scale of points as adopted by the Federation will prevail in judging exhibits. Decisions of the judges shall be final.

"The exhibition hall will be open for the arrangement of exhibits on Saturday morning, Sept. 17th, at 9 a. m. and all exhibits must be staged by 2:30 p. m., at which time the judging will commence. No person will be permitted in the hall during time of judging.

"Ribbons will be awarded in all classes—blue for first, red for second, white for third. Additional awards will be made when exhibits are meritorious.

"Exhibits must not be removed before 7 p. m. Sunday. Committee will not be responsible for any loss, damage or breakage."

In some classes there will be competitions confined to members of the club, but in the same classes other competitions are provided in which non-members can compete against club members and each other. In other words, they will be entirely open. Following is the full list of classifications in which there will be competition for ribbons:

### Annuals (For Members)

Best vase of six except as noted.

1. Double Branching Asters
2. African Marigolds
3. French Marigolds
4. Phlox
5. Zinnias

## SLAVERY DAYS TO BE PORTRAYED IN REVIVAL OF "UNCLE TOM'S CABIN"

(Continued)

have been presented under his direction.

Already many Teaneck citizens, informed of the event, are looking forward to seeing old Uncle Tom, poor little Eva, Eliza, the cruel Simon Legree and Topsy, who "jest grewed up", as well as the blood hounds in full chase across the ice floes, when this historic drama is put on at the high school.

Every pain will be taken to make this event as colorful and never-to-be-forgotten as possible. A dozen or more girls, in blackface, and costumed as darkies of the plantation, will hand out programs.

Between the acts, true to the traditions of play as presented three generations ago, there will be an "olio" of vaudeville acts, as carefully faithful to the days of yore, in spirit and technique, as the play itself.

And by the way, 1932 marks the eightieth anniversary of the first presentation of "Uncle Tom's Cabin", so the event at the high school will have historic significance, and will serve at the same time as an object lesson in one of the critical periods of American history.

## BUILDING IN TEANECK HOLDS SATISFACTORILY

Comparative figures show that new construction in Teaneck is holding its own relatively. For the past several years the Township rating has varied from third to sixth among New Jersey municipalities. Its July rating was fifth among the reporting cities. Even at that it was only \$700.00 behind the next highest city, Jersey City.

A survey of the August permits so far issued shows that well along towards the end of August, permits for a total amount of only \$6,000.00 worth of work had been issued, and this \$6,000.00 was entirely for remodeling and repairs. However, towards the end of the period the Mezick development came in for permits for eight new buildings.

It would seem that aside from the new church and school being built by St. Anastasia, the building activity in the Township is entirely confined to the Mezick development.

**JOHN SKALA POPULAR  
PLUMBING ENGINEER**

This locality is fortunate in having available for its commercial service such outstanding experts in their respective crafts as John Skala, the well known and highly recommended plumbing and heating contractor with headquarters at 37 Intervale Road, Teaneck.

He is looked upon as a very efficient plumber and heating worker and is especially commended just now for the repair work and jobbing in which he specializes.

He is looked upon as a very high-class business man, noted as well for his dependability as for his ability in all phases of plumbing and heating work.

He has advanced his reputation for efficient and reliable workmanship during the period of years he has been in business by earnest and intelligent efforts. He is highly commended for his conscientious service and for his personal attention to all details of any contracts he handles.

## TOWN WELFARE WORKERS STILL FUNCTIONING

Although the campaign for Emergency Relief Funds conducted by the Teaneck Welfare Organization came to an official close on June 1, donations are still being received according to a statement made last night by James P. Birch, Treasurer. Since the books were audited on May 20th by Frederick W. Scholz, C. P. A., more than \$1500 has come in the way of receipts. The total funds from all sources, up to August 26 last, amounts to \$9,309.19. Of this amount more than \$8600 has been made available for distribution through the Teaneck Welfare Committee. Officers of the organization are hopeful that before it becomes necessary to institute a second campaign, funds derived from the first drive will reach the \$10,000 mark.

## 14 Police Pistol Teams Compete At Opening Of Teaneck Range

(Continued)

tions were ideal and remarkably high scores were made, Red Bank winning the chief event for four-man teams with a score of 1,145 points, the Bergen County Traffic Police ranking second with a score of 1,123 and Rutherford third, with 1,111. Englewood and Glen Rock tied for fourth at 1,102. Bogota's 912 won the consolation cup for low.

The Teaneck force won both of its neighborhood contests, its four-man team defeating the Bergenfield team 1,023 to 898 and the Hackensack team 1,057 to 910. In the Bergenfield match Sergeant Frank Klimm for Teaneck made high individual score of 272, in a possible 300, which was 10 points ahead of Ruff, Bergenfield's best man. In the Hackensack match Sergeant Uber scored 281 and Klimm 276 against Hackensack's top score of 261, made by Capt. Munz.

The open competitions for individuals in various events resulted in two perfect scores, Charles Erickson of the winning Red Bank team and S. Jensen of Glen Rock each recording ten bull's eye shots in slow fire at 25 yards for scores of 100. There were several other scores of 99, 98 and 97.

In the rapid fire individual competition T. Stapleton of Ridgewood made high score of 97.

The only event in which no member of any police department was allowed to compete was an individual slow fire competition open only to municipal officials. After a tie at 95 in the first trial, Major James Norton of Jersey City won with 96 against Dr. Charles Harreys, police commissioner of Ridgewood, whose original 95 dropped in the second round to 89. In this event Mayor Karl D. Van Wagner won third place with 78, pulling down Teaneck's only award in open competition. Township Manager Volcker was close behind him with a 74. Police Magistrate Leland Ferry of Teaneck and Judge Del Mar of Englewood also competed in this event.

Range Officer Theodore Morgan of the Teaneck force had supervision of the schedule, which moved along without a hitch. Amplifiers expedited the summoning of contestants. Scores were posted promptly. Music was furnished between events. A large tent was stretched above temporary bleacher seats to shield spectators from the broiling sun. The Teaneck force served refreshments throughout the day to both contestants and spectators, and everything possible was done to make the occasion enjoyable and comfortable for the large crowd that attended.

At the conclusion of the program Chief Cornelius J. Harte awarded the trophies, cups and medals to the winners. Judges in all competitions were Captain Samuel Parks of Glen Rock, Patrolman Matt

Donohue of the Bergen County Traffic Police and Patrolman Harry Maxwell of Englewood.

In making arrangements for the September 1 competition and for their own department's annual competition on Labor Day, the Teaneck Police not only had the support and encouragement of the Township Council, which voted commendation and appreciation of the work of the members of the force who built the range, but also from other sources, a fine array of prizes and medals to be awarded in various events, which helped in assuring wide participation and the keenest rivalry.

The work of building the range, said to be one of the best in the state, was undertaken by the members of Teaneck's police force at their own initiative and on their own time, signaling the improvement in morale and increase of efficiency that has marked the development of the department in the last two years. Members of the force named in the Council's vote of appreciation are Sergeants Uber, Costy, Klimm and Morgan and Patrolman Cancro, Deckert, Franke, Baker, Puppulo, Sganga, Keenan, Mooney, Muhlhorn, Mosher, Lindsay, Ziegler, Fox, Michels, Dunn, Croonquist and Klemm. Dog Warden Van Dyke also helped in the work and was named in the motion.

## FOURTEEN POLICE TEAMS COMPETE IN OPENING PISTOL RANGE SHOOT

(Continued)

### Team Competitions

First prize—Victory Trophy and four silver cups for team members (two-year trophy) donated by Teaneck National Bank; won by Red Bank.

Second Prize—Glory Trophy donated by Teaneck Auto Sales Co., and four silver medals donated by Croissant Consolidated Co., won by Bergen County Traffic Police.

Third Prize—Triumph Trophy donated by Joseph W. Marini and four bronze medals donated by Croissant Co., won by Rutherford.

Fourth Prize—Silver Loving Cup donated by Edward Corrison, won by Englewood.

Fifth Prize—Silver Loving Cup donated by John Brarman, won by Glen Rock.

Consolation Prize (low score)—donated by William Conklin, Jr., won by Bogota.

Team Member High Score Prize—Silver Loving Cup donated by Senator Wm. H. J. Ely, won by Prior of Red Bank Team.

### Individual Competition

(Not open to Team Members)

First prize—Silver Loving Cup donated by Anderson Sport Shop, won by Peterson, Middletown, N. Y.

Second Prize—Silver Loving Cup donated by Joseph Castel, won by Joseph Putz, Hawthorne.

Third Prize—Silver Loving Cup donated by Edward A. Kenney, won by C. Myer, Glen Rock.

### Municipal Officials Open (Not Open to Police)

First Prize—Silver Loving Cup donated by Edward Ryan, won by Major Norton, Jersey City.

Second Prize—Silver Medal donated by Croissant Consolidated Co., won by Dr. Harreys, Ridge-wood.

Third Prize—Bronze Medal donated by Croissant Co., won by Mayor Karl D. Van Wagner, Teaneck.

The Labor Day event was confined to members of the local police force, except that the program included a slow fire match between members of the Council and members of the Public Safety Advisory Board, for which no prizes were provided. The prizes offered for the departmental contests were as follows:

Silver Plaque for recording year by year high score—Mayor Karl D. Van Wagner.

Silver Loving Cup and Silver Medal—West Englewood National Bank, Teaneck to remain the property of the Teaneck Police Department until it is won two years by any Officer.

## ENTHUSIASM HIGH FOR STADIUM DEDICATION SATURDAY AFTERNOON

(Continued)

The athletic field will be decorated for the occasion, and the committee hopes to have the Teaneck High School band on hand to add a vivid touch of color, as well as fine music. The band alone, as proved by all its past appearances, is a great attraction in itself. It is hoped, that the new stadium now ready for its first seating, will be filled to capacity.

Prizes in the form of gold, silver and bronze medals will be awarded to winners of first, second and third places in each event.

To compete in any A. A. U. event, each entrant must fill out an application blank and pay an entry fee of twenty-five cents. For each relay team the entry fee is two dollars. For the events in which only Teaneck residents are allowed to compete no entry fee will be charged.

The program will start at 2 p. m. and since September 10 falls on Saturday a very large attendance is expected, as the hour is late enough to give people time to get home from business.

Entry blanks can be secured from any members of the advisory board, or from Township Manager

Volcker at Town Hall. The members of the board, who can all be found in the telephone book, are Emmons Grahm, Chairman; Robert P. Lewis, W. S. Jessurun, H. A. Antonius, William Lohr, Irving Ross and George O'Hare.

Blank forms of application to join the A. A. U. also can be got from A. A. U. representatives, Mr. Schmali, 250 Poplar Avenue, Hackensack, and Mr. N. Joseph, 261 River Road, Teaneck, or from the office of the New Jersey Association, A. A. U., at 17 Academy Street, Newark.

All entry blanks for the events of September 10 must be in the hands of Robert P. Lewis, 196 Norma Road, Teaneck, or delivered to the A. A. U. Office in Newark, not later than Tuesday, September 6. The committee in charge reserves the right to reject any entry.

One of the most interesting events will be the mile relay race for club entries, and the variety of both field and track events is such as to assure a most interesting series of contests. The program in full is as follows:

### Events Closed to Residents of Teaneck

#### Boys

50 yards—8-12 years old.

75 yards—12-16 years old.

100 yards—open age.

220 yards—open age.

Running Broad Jump.

12 lb. Shot Put.

1 Mile Club Relay Handicap.

#### Events For Women

50 yard Novice.

75 yard Handicap.

Running High Jump.

Basketball Throw.

Don't forget the day, date and hour, 2 p. m. on Saturday, September 10; or the place—Teaneck High School Athletic Stadium. Everybody is invited to help make this event, the first of a series the new board is planning to raise funds for emergency relief, a huge success.

When this was written, the committee had under way plans to stage a series of boxing bouts at the stadium the evening of the same day, September 10, proceeds also to go for emergency relief. Details had not been completed, but if the plan is found practicable the news will be spread in ample time. Meantime, those interested in boxing might save the date. If arrangements cannot be completed in time for September 10, the plan undoubtedly will be carried out on some other date in the near future.

The Garden Club is now looking  
for a suitable Teaneck slogan to be  
adopted as the club's slogan, and  
to be printed on its letter heads or  
other club stationery. As a prize

the winner will be given member-  
ship in the club without dues. The  
slogan must be a suitable charac-  
terization of Teaneck, in a phrase  
that can be popularized, and that  
will help to stimulate community  
pride.

alarms could still be transmitted by means of storage batteries and so that in case of trouble anywhere along the line, a warning blast is automatically given.

The system installed was bought piece meal and after competitive prices were obtained by Chief Murray, and was installed by the labor of the firemen themselves, some of whom are expert mechanics in various trades which they followed before being appointed. Both Chief Murray in the designing and purchasing of the equipment and the men in the installing of the equipment, had the advice of a former Gamewell official. Some of the equipment used was given or sold to the Township of Teaneck by Hudson County Fire Departments at tremendously low prices.

The mechanical apparatus in the firehouse is only part of the system. Another part consists of arrangements with the Bell Telephone Company whereby emergency telephone calls to the firehouse are dispatched over separate phones used only for this purpose.

The third integral part of the arrangement of phantom boxes throughout the town and the supplying of each and every house with a card showing the box number for the district in which that house is.

The fourth part consists of complete card indexes in the firehouse itself showing the location of all Phantom boxes and the district they cover, every house in town, its address and box number and a series of "running cards" showing which apparatus is to respond on first, second and third alarms in the various districts. The advantages of this system are:

1. It speeds up the receipt of calls in the firehouse.

2. As far as humanly possible, it eliminates errors due to the excitement in reporting fires.

3. It notifies the town in general and the volunteer firemen in particular, as to where the fire is.

4. It sets up a distinct procedure in following up fires and calling for addition help in possible contingencies.

The disadvantages of the old system which it eliminates were:

1. Great chance of error in reporting the location of a fire.

2. The clogging of telephones by volunteer firemen, and others, calling into Fire Headquarters to determine the location of the fire.

3. It eliminates the possibility of Teaneck fire calls going to Englewood and Hackensack Fire Headquarters as has actually happened.

4. It eliminates delay due to the necessity of volunteer firemen first reporting at the Fire Headquarters to find out where to go.

5. It eliminates any possible confusion as to what is to be done in case of first and second alarms.

**Why Babies First Teeth  
Demand Dentist's Care**

By Dr. Leo. A. Treinis

(NOTE—Dr. Treinis, who has rendered valuable service to Teaneck by making dental examinations of all members of its police and fire departments without charge, and who is a member of the Board of Child Hygiene, Clinical and Social Service, has written by request for this newspaper the important article on the care of infants' teeth of which the first installment appears herewith. Editor).

All parents want their children to be happy and successful, and in their eagerness to help them, especially while babies or still very young and helpless, there is practically no limit to the sacrifices parents are willing to make.

Every mother, when her child is ill, wishes she might take its place and bear the suffering herself, yet unfortunately there are many instances in which the little one's suffering is due solely to the mother's carelessness or neglect. Such cases of neglect are particularly prevalent in the care of children's teeth, due solely to lack of knowledge of the importance of baby's first teeth.

Few mothers, in fact, know what takes place in the mouth of a child, or realize that from the very day of birth until the age of 14 or 15 years there is constant growing, eruption, absorption, shedding and replacement of teeth. Neither do they know, the approximate time for the shedding of each baby tooth; yet that physiologic change is of utmost importance in the life of the child. A tooth that is supposed to fall out at the age of six must not be allowed to remain in the mouth until the child is ten, for too long retention of baby teeth is just as harmful as premature extraction. Both conditions are factors that result in crowded, crooked or protruding teeth, improperly developed jaw bones or inharmonious facial features.

Having the family dentist check up on this condition will more than repay parents in satisfaction and pride in the looks of their children, as they grow older, and in many cases will save them the heavy expense of having the teeth straightened later on by braces or other orthodontic appliances, and the aggravation and worry their use involves.

Nature gives each child twenty first teeth, ten in each jaw, arranged in a certain way and for a certain purpose. Nature wants each of these teeth to stay in the mouth a certain length of time, and to perform a definite function. Hence it is certainly as important for the mother to watch carefully over these little organs, so essential to the child's future health and appearance, as it is to give care to the child's hair or fingernails; yet many mothers fail to realize this.

What, then, are the functions of the teeth? They are four fold, and as follows:

1. To chew food.
2. To assist in the articulation

(Continued on Page 15)

## WHY BABY'S FIRST TEETH NEED DENTIST'S CARE

(Continued)

of speech.

3. To assist in facial development and expression.

4. To serve (in the case of baby teeth) as pathfinders and to preserve space in the jaw for the succeeding permanent teeth.

Decayed and infected teeth not only cause pain but often lead to serious disease such as heart trouble, rheumatism, appendicitis, ulcerated stomach or any other ailment that can be caused by pus or poison produced by germs in the cavities in bad teeth or around the roots of ulcerated teeth. Such poisons find their way into the body through being swallowed with food or direct from infected roots. By having teeth filled before decay has time to reach the inner pulp of the tooth, or the nerve, most of these diseases can be prevented.

The gravest mistake of parents is neglect of the child's first permanent molar, often called the 6-year molar because it erupts at the age of six. Many parents do not realize that this is not a baby tooth but is intended by Nature to remain permanently in the mouth. It is the first permanent tooth to arrive. Its roots do not become absorbed and it does not fall out, as the twenty temporary teeth do.

There are four of these 6-year molars, one at each of the farthest ends of each jaw, and by interlocking with each other they form the

foundation for the entire facial structure and serve as a guide to the proper anatomic relationship of all permanent teeth yet to be erupted.

Premature loss of one of these molars works chaos in the anatomy of the human mouth. Its damage is often beyond repair. Yet of all permanent teeth this molar is the greatest sufferer from neglect due to the erroneous idea that it is a baby tooth and does not need attention.

Children's teeth should be examined and cleaned by a dentist regularly every six months. Thus cavities can be discovered when small and filled early, preventing much later trouble and expense. This plan enables the dentist to correct all sorts of irregularities with little or no pain, and through these regular visits the child's early fear of the dentist is replaced by a feeling of confidence and friendship.

(To Be Continued)

## LOST AND FOUND

The Town Manager:

Will you please put a note in the next issue of The Town Manager to the effect that we are still holding a pair of glasses, shell rimmed, together with their case, which were left in the Executive Chamber at the Town Hall some time ago.

Thank you.

Yours very truly,  
Clara Christensen,  
Deputy Township Clerk.

## NEW RELIEF BOARD APPROVED TO TAKE CARE OF EMERGENCY

(Continued)

have shown a marked change for the better; and it is expected that this committee, in co-operation with the Advisory Board on Charity and the Advisory Board on Parks, Playgrounds and Public Recreations, will become a valuable factor in assuring the success of enterprises undertaken to raise funds, also in the necessarily heavy work of research and distribution.

Those named in the resolution as members of this committee are: James P. Birch, George L. O'Hare, W. S. Jessurun, Martin Korb, J. C. Tribert, E. C. Cuny, Walter Guerber, C. F. Winter, A. I. Namm, George Scherer, P. E. McEvoy, H. A. Antonius, Frank Winters, Ward Sheets, A. N. Berge, Armand Bely, Charles A. Wild, Sr., C. A. Wedel and George Croonquist.

## The New Lido Inn

A magnificent mansion transformed into a high class resort for the accommodation of Bridge Parties, Wedding Dinners, Club and Social gatherings. Mr. Simon Billia whose wide experience in New York in the preparation of Italian and French cuisine is in charge of this modern establishment and wishes to announce to all his Teaneck friends and acquaintances that they will find him on the premises always ready to welcome his guests and offer them the courtesy and attention to which he is accustomed. He is convinced that a visit to the New Lido Inn will satisfy the most exacting as to the high character of this enterprise.

Special attention paid to parties, bridges, weddings and social functions of all kinds. A phone call is all that is necessary.

## Teaneck Citizen Honored

The Federal Government has honored a citizen of Teaneck in awarding The Order of the Purple Heart to Mr. Frank J. Loh, Jr., who resides at 246 Cherry Lane. The award was made "for military merit".

THE NEW LIDO INN, 1086 TEANECK ROAD, ON ROUTE 4

# THE TOWN MANAGER

Application for Second Class Matter Pending

Official Publication of the Teaneck Taxpayers' League

Its Field—The Township.

Its Creed—Justice towards all; malice toward none.

Its Purpose—To make Teaneck a good place to live in.

Its Hope—Co-operation from all residents, on non-partisan basis, with an eye single to service for the benefit of all.

PUBLISHED ON THE FIRST OF EACH MONTH

OWNERS: THE TEANECK TAXPAYERS' LEAGUE

Starting with this issue, The Town Manager is produced under direction of a board selected by Teaneck Taxpayers League. Its members are August Namm, Chairman; Milton G. Votée, Charles Paulsen, Mrs. P. E. McEvoy, James P. Birch, C. K. Lyans and Louis G. Morten. In the next issue the board will announce its new staff organization. Meantime, communications should be addressed: The Town Manager, 552 Linden Avenue, Teaneck, N. J., or telephone Teaneck 6-9604-W.

## THE BEST KIND OF ADVERTISING

The rapid and successful growth of the Garden Club of Teaneck, which has just completed plans for a somewhat pretentious Fall Flower Show, as announced in this issue, gives further evidence of what can be accomplished in Teaneck when the minds of its citizens are directed along any line of effort that contemplates making their home town a better place in which to live. Both the Teaneck Community Orchestra and the Garden Club of Teaneck came into being in a very short time after publication in The Town Manager of suggestions that such organizations would be valuable factors in the life of the township, providing that there is a deep community pride in Teaneck citizens that needs only to be set at work to make it a great community asset. Citizen organizations devoted to such high aims will serve as the kind of advertisements of Teaneck.

## CONGRATULATIONS TO THE TEANECK POLICE

The Town Manager extends its congratulations to the Teaneck Police Department upon the highly successful statewide tournament that marked the dedication of its new Teaneck Pistol Range on September 1. It heartily endorses the Township Council's expression of appreciation of the fine spirit that prompted members of the force to build the range, which competent judges have declared one of the best, if not the very best in the state. Most of all, the citizens of Teaneck are to be congratulated upon the marked improvement in that arm of the municipal government on which they depend for protection of life and property and for enforcement of law.

Freed from all political entanglements or obligations, and established on the basis of the merit system applied under strict discipline, the police force of Teaneck in the last two years has shown greatly increased efficiency and a better morale than ever before. Its enterprise in providing itself with a pistol range, the sole incentive being to enable members of the force to develop higher ability in marksmanship, is the best evidence of growth in the department of an entirely new spirit—an ambition to win for themselves as individuals, and for their department as a whole, the highest possible rank in police efficiency.

Teaneck now has a police force of which it may be justly

proud—a fact of which citizens are daily becoming more fully aware.

## MERITS OF THE NEW RELIEF PLAN

Action taken by the Township Council in creating the Mayor's Emergency Relief Committee marks the inauguration of a new plan for handling relief work in Teaneck—a work that will continue to be one of the township's foremost problems until general business conditions have improved greatly. In other cities where it has been tried the plan has proved its merits.

Its aims are—through a large committee of citizens representing all sections of the community—to provide for proper investigation of all applicants for relief, avoid duplication of relief and assure economy in purchase and distribution of relief supplies. Such measures are necessary for assurance to contributors of relief funds that every dollar contributed shall be properly used. It is proposed also that the committee shall have a bonded treasurer and provide for audit of its accounts, so that individuals and organizations donating funds for relief can know exactly how the funds are disposed of.

Another advantage of the plan lies in the fact that local relief funds cleared through official channels earn credit for Teaneck in the allotment of state relief funds, the same as if appropriated in the budget. By this means, and through encouragement of athletic and other entertainments to raise funds, every effort is being made to lessen the drain on the pockets of individual contributors, whose generosity during the last year has been put to a severe test.
