

Class History

For the first class to go through Teaneck High it will perhaps be a sad graduation bringing to an end six years of fun and generous contributions to the welfare of the school.

As Junior High Students we entered a new school where others besides ourselves were new, so our mistakes were not so glaring and we were readily excused. Mr. High was then the principal.

Various students became active in the Footlight Club, the outstanding Junior High Club, and some of these have continued as "Play-crafters."

At Junior High graduation, with the presenting of *The Adventures of Odysseus* a large class became sophomores. In this year Mr. Littel first came to our school. Miss Moor was the faculty adviser in a not too active year which terminated in a picnic to Green Pond.

With the coming of the Junior Year, with the electing of "Denny" Averill president, and with Mr. Guiler as faculty adviser, things "hummed" ever so much more for the class members. There were active Juniors in all the clubs, not to mention the fact that the Junior Class members were the prominent members in forming the new club, Active Atoms.

We prided ourselves that year on our very successful Junior Prom. Rain almost disappointed us on the class picnic to Indian Point, but, however, we all managed to have a good time in that day of varying weather.

Our Senior Year, under the principalship of Mr. Steel, and the advisership of Mrs. Vanderbilt, has been characterized by several new activities.

The Friday afternoon informal ten-cent dances have been the highlights of the year affording pleasure, an opportunity to dance, and to learn to dance and overcome the fear that the dance floor may have had for some. They paved the way to a successful Senior Hop.

Another thing was the Card Party, which gave those who played any kind of cards a chance to do so at a grand get-together party.
