The athletic council is made up of representatives from the board of education, the administration, the faculty, and the Student Council. Its main duties are to determine all policies of the athletic program and to finance all sports.

The whole school owes the cheerleading squad praise and commendation. No matter how bad the weather, they were always on hand to lead us in a cheer. We won't forget the way they cheered the team on in all the rain and mud during the Leonia game. New cheers and formations were featured by the cheerleaders during the year.
