Councilman Henry Deissler suggested that a framed testimonial be presented to each family of every man or woman of Teaneck who is a casualty in the service of the United States during World War II.

"I know that the people of Teaneck will not allow any of them to forget their responsibility to all of our citizens. And every man or woman now in our armed forces, but when they come back we will expect them to rejoin their communities as usual," he said.

Deissler said that he believed every citizen of Teaneck is aware of the great distress and hardship that the war is causing our citizens in the armed forces.

"We cannot expect to be the country that leads the world in the war effort and not think of the sacrifices made by our citizens in the armed services," he said.

"I would appreciate it if each family of every military man who is a casualty would receive a framed testimonial to be presented to each family, or next of kin, of every man or woman who is a casualty in the service of their country during the present emergency."
